Web Application Enhancements / Updates

Included with this update: FoxPro Version: SISMain\_74\_1000

SIS.Web-2013.11.05.zip and

DB (2013.11.05)(FW).sql

**Critical: Remember to add permissions in the Control Master for users who will need access to new features.**

Listed alphabetically by component - Web ASPIRE SOFTWARE Updates

**SIS2000+ Software name change - we have changed our software name to Aspire. We will be going through and updating all our documentation to show the new name and logo. This will take some time, so please be patient with us. We will start referring to our software as Aspire immediately.**

**Academic Progress Application** -

- **Class Ranking**

**Users who wish to not rank students can ignore this information. Ranking will not be added to transcripts if users do not process the ranking of students.**

**Users who wish to not weight ranking may also ignore this information. No changes will be made unless you manually make them.**

**Please read this information carefully -**

Users requested the ability to use a weighted GPA for ranking purposes. If a school would like a course like an AP or Honors Course to be weighted higher than regular class courses,

users can adjust an individual course in the District Courses Module in FoxPro.

This change has been implemented by adding an optional WGPA multiplier field in the course editor that will be stored in Course History as student marks are posted. **Student Marks must be posted or entered in course history to apply the WGPA ranking calculation change to student courses.**

**Weighted GPA will only be used to weight the GPA for ranking students;** it will **not** be used in the regular GPA calculation and will not alter student marks.

All students enrolled in the course that has a WGPA Multiplier added, will have the gpa weight changed when ranked. If you don't make any changes in the WGPA multiplier field - the WGPA Multiplier will not be changed for ranking and will be weighted equally with all other courses.

Adding Weighted GPA is done in FoxPro **District Courses** module.

In order to show the weighted GPA on student transcripts, there is a new entry in **Edit Settings** in the **Control Master** under a **new Transcript** category: **Transcript >> 'Show Weighted GPA'**.

**If weighting values are added in the District Courses Module - these courses will be used for ranking regardless of this setting being checked or not checked on the web.**

**Selecting - Transcript >> 'Show Weighted GPA' setting is only to indicate the weighted GPA will display on student transcripts along with the regular GPA.**

The default, if you do not adjust the WGPA multiplier, will rank and show GPA on transcripts as it has been in the past.

**If you need help with understanding this process, please contact your Aspire Software Specialist.**
